

ATTENTION: All PARENTS OF LONG BEACH SCHOOL DISTRICT
Important information concerning all students

All applications for free or reduced price meals will be made on-line at **Applyforlunch.com**. This website can be accessed from the Long Beach School District homepage under FREE OR REDUCED APPLICATION. We no longer use paper applications.

A new application must be submitted every year, however, if your child was enrolled in LBSD at the close of last year, you may choose to let him eat according to that status for the first 30 days only. But the new application must be received and processed by **September 19, 2017**. After that date your child will be dropped from the program and revert to full pay meals.

No free or reduced meal can be given to a child until an application is processed in the Office of School Nutrition of the Long Beach School District. If you have moved from another district, a new application must be filled out and submitted to this district. Until you receive notice that we have processed your application, you must see that your child has money for meals.

The price of paid lunch is \$2.75, reduced is \$.40. The price of paid breakfast is \$1.50 and reduced is \$.30.

All Parents must see that their child has money for meals when they come into the cafeteria, unless they have been approved for free meals.

All Parents are required to set up a user account at **myschoolbucks.com** to track your child's meal activity, payments, and account balance. Payments may be made directly to the School Cafeteria with a check or cash or on-line for a small fee.

All Parents need to follow the NO CHARGE policy of the LBSD and keep money in the account of the child so that they will not be called during the day to bring money or lunch.

If you have any question, you may direct them to the Office of School Nutrition at 228-864-1337.
